

I currently listen to K-LOVE at 88.9 FM. The music provided, the commentary, and the news from a Christian perspective are all very encouraging to me. The local events calender (K-LOVE calender) keeps me informed of seminars, concerts, classes and singles events for Christians. The family friendly programming is safe for my children.

If K-LOVE were stopped, it would affect the entire community. I've never heard another commercial free, family friendly radio station anywhere in the country like K-LOVE.

I believe allowing K-LOVE to continue broadcasting is in the public interest because there are many local stations owned by the same companies. If K-LOVE were not allowed to broadcast here, a very few companies/individuals would control what everyone in our area can listen to. I believe that kind of situation is inherently dangerous.

Thank you for your time.
